Hosted

Overview

PD Master™ is an integrated suite of easy-to-use software tools and online processing designed around proven methodologies. It is a true browser-based Software-as-a-Service (SaaS) application. It is created from the ground up specifically to:

- Enable users to quickly, and interactively, learn the proven processes and methodologies that result in efficient and effective delivery and assessment of training;
- Deliver software that reinforces this knowledge and drives proper execution of these processes real-time;
- Provide a suite of unparalleled training management tools that allow users to accomplish more with less; and
- Eliminate the requirement for customer IT department to install, maintain and update the software.

Unequaled value and functionality.

PD Master Suite™ meets the training management needs of organizations at an affordable cost. The software provides a complete set of tools for tracking, evaluation and reporting so that customers can:

- Provide evaluation instruments that link teacher and student performance data and develop information systems to track efforts to improve teaching and learning.
- Meet school and district requirements for a comprehensive, customizable professional development management system.
- Assist districts' ability to store, manage and report on all facets of the various federal, state and local district requirements.
- Track federal, state and local certification, and licensure.
- Manage multiple professional development plans, instructor-led and online training events, registration and attendance and manage and access new hire orientation program status, personnel records and transcripts.

Easy to use and nothing for you to maintain

PD Master Suite™ is a hosted application that is provided to you through your internet connection, no matter where you are. Benchmark One hosts the application in a secure data center located in Longmont, Colorado. Because we host the application, nothing is installed on your organization's network. This places no demand on your organization's IT department for installation, ongoing maintenance, updating and support. We support you through set-up and configuration and in continued use of PD Master™. In other words, we become part of your Professional Development team.

About Benchmark One, Inc.

Benchmark One, Inc. was founded in 1995 and has established a presence in the education and corporate training marketplace. Since 1997, the company has provided staff development services and program management for the US Department of Education, Colorado Department of Education, the Midwest Regional Education Lab (McREL), the Education Commission of the States (ECS) and a wide range of school districts and regional education centers in more than 25 states.
